

Lagoon 380

The Lagoon 380 In few words...Result of years of experiment and research, the Lagoon 380 is well thought: Large glazings in side of hull and looked after ventilation, arrangements with profusion... Access to the engines by the skirts, large cockpit with table and bench, broad gangways. The claw of the architects Van Peteghem and Lauriot-Prevost. Spaces, volumes, clearness, ergonomics, heat of wood, softness of fabrics, all was taken into account for your cruising is most comfortable. The square in round-off, natural prolongation of the cockpit, offers a vision to 360° through port-holes and picture windows. The table with charts is accessible directly since the cockpit which offers a convivial space with its immediate table close to the kitchen and its bases. Simplicity of the plan of bridge, effectiveness, safety and comfort on board; the operations return to the station of bar: navigation in Lagoon 380 is fast and easy, even as a reduced crew.

Caractéristiques du catamaran

- Longueur : **11.50 m**
